

We understand that you may wish to use the internet and/or social media sites while you are here. We want to protect and preserve the privacy and dignity of our patients, staff and visitors and request that you follow the below guidelines:

Patients and visitors are reminded that you are responsible and personally liable for your actions when using your mobile and social media while in hospital.

Care and consideration for the privacy and dignity of other patients, visitors and staff should be given at all times.

Where photographs or recordings are made whilst on Trust premises, efforts must be made not to capture other patients, visitors or staff unless you have the explicit consent of all those captured.

Images or recordings made whilst a patient, or whilst visiting the Trust must not be posted onto any internet site or shared with another individual unless you have the explicit consent of all those involved.

The live streaming of images and/or audio from our premises is strictly forbidden.

Information that could potentially identify a patient must not be posted onto any internet site or shared with another individual without their explicit consent.

Comments relating to a patient, visitor or member of Trust staff should be avoided.
